Astomos Energy Corporation

Naming Ceremony for New VLGC, "CRYSTAL ASTERIA"

Astomos Energy Corporation ("Astomos") attended a Naming Ceremony for New VLGC, "CRYSTAL ASTERIA" held by Kumiai Navigation ("KUMIAI") on 28th July, 2021 at Sakaide Shipyard of Kawasaki Heavy Industries. The vessel equips Dual Fuel engine which able to consume LPG as fuel, which is the very 1st one in Japan. LPG fuel engine decreases 90% of Sox and 20% of CO2 emissions compared to consuming fuel oil.

Astomos will strive in environmentally friendly society and this progress is only set to accelerate. This charterer is only beginning of our portfolio along with world's first purchase of Carbon Neutral LPG.
