

5th June 2019

Astomos Energy Corporation

The first discharge of Canadian Propane from AltaGas in Japan
~Diversification of Supply Source~

Astomos Energy Corporation (Astomos) announces the commencement of taking Canadian Propane from Ridley Island Propane Export Terminal (RIPET) by AltaGas Ltd. (AltaGas) and completion of the first discharge in Japan at KYUSHU L.P.G. FUKUSHIMA TERMINAL today.

Astomos assures further safe and continuous LPG supply to Japan with diversified supply source of Canadian Propane by AltaGas. The offtake of Canadian LPG also contributes to diversify the propane export market for AltaGas and expands the cooperative ties between AltaGas and Astomos.

1. Brief description of Sales Purchase Contract

- (1) Seller : AltaGas Ltd.
- (2) Product : Fully Refrigerated Propane from RIPET
- (3) Port : Port of Prince Rupert, BC, Canada
- (4) Export Start : May in 2019

2. Background

Astomos concluded a SPA with AltaGas for Propane produced from RIPET located in Prince Rupert, British Columbia on 2nd August 2017.

RIPET began introducing propane feedstock in April 2019. The grand opening celebration was held in Price Rupert on 28th May 2019 and the first propane export from West Coast Canada has started.

News Release

Discharge at KYUSHU L.P.G. FUKUSHIMA TERMINAL
